

Orbis Bounty Program

The Orbis Bounty Program rewards individuals for contributions relating to Orbis white paper translations, social media, and development. We strongly believe that in order to create the best platform possible we need the involvement of as many people in the community as possible! OBT amounts as per crowd-sale exchange rate and will be drawn from the community fund. The Orbis Bounty Program will run through the duration of the crowdsale and tokens from the bounty program will be distributed after the conclusion of the crowdsale.
